ERA GROUP INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

1. BASIS OF PRESENTATION AND ACCOUNTING POLICY

The condensed consolidated financial statements include the accounts of Era Group Inc. and its consolidated subsidiaries (collectively referred to as the “Company”). The condensed consolidated financial information for the three and nine months ended September 30, 2013 and 2012 has been prepared by the Company and has not been audited by its independent registered public accounting firm. In the opinion of management, all adjustments (consisting of normal recurring adjustments) have been made to fairly present the Company’s financial position as of September 30, 2013, its results of operations for the three and nine months ended September 30, 2013 and 2012, its comprehensive income for the three and nine months ended September 30, 2013 and 2012, its changes in equity for the nine months ended September 30, 2013, and its cash flows for the nine months ended September 30, 2013 and 2012. Results of operations for the interim periods presented are not necessarily indicative of operating results for the full year or any future periods.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles in the U.S. have been condensed or omitted. These condensed consolidated financial statements should be read in conjunction with the financial statements and related notes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2012.

Unless the context otherwise indicates, any reference in this Quarterly Report on Form 10-Q to the “Company” refers to Era Group Inc. and its consolidated subsidiaries and any reference in this Quarterly Report on Form 10-Q to “Era Group” refers to Era Group Inc.

Prior to January 31, 2013, the Company was wholly owned by SEACOR Holdings Inc. (along with its other majority-owned subsidiaries being collectively referred to as “SEACOR”) and represented SEACOR’s aviation services business segment. On January 31, 2013, SEACOR recapitalized the Company through the exchange of all of its Class B common stock and \$140.0 million of its Series A preferred stock for 19,883,583 shares of newly-issued Era Group common stock, par value \$0.01 per share (the “Recapitalization”). Following the Recapitalization, the Company had only one class of common stock issued and outstanding and no preferred stock outstanding. On January 31, 2013, SEACOR then completed a spin-off by means of a dividend to SEACOR’s stockholders of all of the Company’s issued and outstanding common stock (the “Spin-off”). The Company filed a Registration Statement on Form 10 with the Securities and Exchange Commission (SEC) that was declared effective on January 15, 2013. Prior to the Spin-off, SEACOR and the Company entered into a distribution agreement and several other agreements that govern their post-Spin-off relationship. Era Group is now an independent company with its common stock listed on the New York Stock Exchange under the symbol “ERA.”

In connection with the Spin-off, the Company entered into an Amended and Restated Transition Services Agreement with SEACOR. Under the terms of the Amended and Restated Transition Services Agreement, SEACOR continues to provide the Company with certain support services, for up to two years from the effective date of the Spin-off, including payroll processing, information systems support, cash disbursement support, cash receipt processing and treasury management.

Revenue Recognition. The Company recognizes revenue when it is realized or realizable and earned. Revenue is realized or realizable and earned when persuasive evidence of an arrangement exists, delivery has occurred or services have been rendered, the price to the buyer is fixed or determinable, and collectability is reasonably assured. Revenue that does not meet these criteria is deferred until the criteria are met. Deferred revenues and related activity were as follows (in thousands):

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2013	2012	2013	2012
Balance at beginning of period	\$ 15,620	\$ 9,305	\$ 8,953	\$ 123
Revenues deferred during the period	9,362	8,017	27,571	18,921
Revenues recognized during the period	(4,713)	(6,198)	(16,255)	(7,920)
Balance at end of period	<u>\$ 20,269</u>	<u>\$ 11,124</u>	<u>\$ 20,269</u>	<u>\$ 11,124</u>

As of September 30, 2013, deferred revenues included \$16.9 million related to contract-lease revenues for certain helicopters leased by the Company to Aeróleo Taxi Aero S/A (“Aeróleo”), its Brazilian joint venture. The deferral originated from difficulties experienced by Aeróleo following Petróleo Brasileiro S.A.’s (“Petrobras Brazil”) cancellation of certain contract awards for a number of AW139 medium helicopters under contract-lease from the Company, and the deferral continues as a result of financial difficulties at Aeróleo. The Company will recognize revenues as cash is received or earlier should future collectability become reasonably assured. All costs and expenses related to these contract-leases were recognized as incurred.

[Table of Contents](#)

As of September 30, 2013, deferred revenues also included \$3.4 million related to contract-lease revenues for certain helicopters leased by the Company to a customer in India. The deferral resulted from the customer having its operating certificate revoked for a period of time and therefore being unable to operate. The certificate has since been reinstated but uncertainty still remains regarding the collectability of the contract-lease revenues due to the customer's short-term liquidity issues. The Company will recognize revenues as cash is received or earlier should future collectability become reasonably assured. All costs and expenses related to these contract-leases were recognized as incurred.

Reclassifications. Certain reclassifications of prior period information have been made to conform to the presentation of the current period information. These reclassifications had no effect on net income, equity or the components of cash flow as previously reported.

2. FAIR VALUE MEASUREMENTS

The fair value of an asset or liability is the price that would be received to sell an asset or transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The Company utilizes a fair value hierarchy that maximizes the use of observable inputs and minimizes the use of unobservable inputs when measuring fair value and defines three levels of inputs that may be used to measure fair value. *Level 1* inputs are quoted prices in active markets for identical assets or liabilities. *Level 2* inputs are inputs other than quoted prices included in *Level 1* that are observable for the asset or liability, either directly or indirectly, including quoted prices for similar assets or liabilities in active markets, quoted prices in markets that are not active, inputs other than quoted prices that are observable for the asset or liability, or inputs derived from observable market data. *Level 3* inputs are unobservable inputs that are supported by little or no market activity and are significant to the fair value of the assets or liabilities.

The Company's financial assets and liabilities that are measured at fair value on a recurring basis were as follows (in thousands):

	Level 1	Level 2	Level 3
December 31, 2012			
LIABILITIES			
Derivative instruments (included in other current liabilities) ⁽¹⁾	\$ —	\$ 1,025	\$ —
September 30, 2013			
ASSETS			
Marketable securities (included in other receivables)	\$ 83	\$ —	\$ —
LIABILITIES			
Derivative instruments (included in other current liabilities) ⁽¹⁾	—	712	—

(1) The fair value of the Company's derivative instruments was estimated using market data gathered by a third party financial institution, adjusted for market and credit risks applicable to the Company.

[Table of Contents](#)

The estimated fair values of the Company's other financial assets and liabilities were as follows (in thousands):

	Carrying Amount	Estimated Fair Value		
		Level 1	Level 2	Level 3
December 31, 2012				
ASSETS				
Cash and cash equivalents	\$ 11,505	\$ 11,505	\$ —	\$ —
Notes receivable from other business ventures (included in other receivables and other assets)	925	925	—	—
LIABILITIES				
Long-term debt, including current portion	279,735	—	283,120	—
September 30, 2013				
ASSETS				
Cash and cash equivalents	\$ 22,517	\$ 22,517	\$ —	\$ —
Notes receivable from other business ventures (included in other receivables and other assets)	642	642	—	—
LIABILITIES				
Long-term debt, including current portion	242,816	—	246,670	—

The carrying values of cash and cash equivalents, accounts receivable, escrow deposits, notes receivable from other business ventures and accounts payable approximate fair value. The fair value of the Company's long-term debt was estimated using discounted cash flow analysis based on estimated current rates for similar types of arrangements. Considerable judgment was required in developing certain of the estimates of fair value and, accordingly, the estimates presented herein are not necessarily indicative of the amounts that the Company could realize in a current market exchange.

3. DERIVATIVE INSTRUMENTS

In 2011, the Company entered into two interest rate swap agreements maturing in 2014 and 2015 that call for the Company to pay fixed interest rates of 1.67% and 1.83% on an aggregate notional value of \$31.8 million and receive a variable interest rate based on LIBOR on these notional values. The general purpose of these interest rate swap agreements is to provide protection against increases in interest rates, which might lead to higher interest costs for the Company. The fair value of these derivative instruments at September 30, 2013 and December 31, 2012 was a liability of \$0.7 million and \$1.0 million, respectively. The unrealized change in fair market value was gains of \$0.1 million and losses of \$0.4 million on these derivative instruments for the three months ended September 30, 2013 and 2012, respectively, and gains of \$0.3 million and losses of \$0.5 million for the nine months ended September 30, 2013 and 2012, respectively.

4. ESCROW DEPOSITS

In August 2013, the Company entered into agreements for the sale of two S76A++ medium helicopters and a S76C++ medium helicopter for cash proceeds totaling \$9.9 million. The sales transactions closed in September 2013 and were each treated as a tax-free like-kind exchange under Section 1031 for tax purposes whereby all of the proceeds are held by a qualified intermediary and thus reflected as an escrow deposit in the consolidated balance sheet. A qualified property has been identified to complete the like-kind exchanges under Section 1031 prior to expiration of the 45-day period subsequent to the closing date.

In February 2013, the Company entered into agreements for the sale of two S76C++ helicopters for cash proceeds totaling \$18.0 million. The sales transactions closed in May 2013 and were each treated as a tax-free like-kind exchange under Section 1031 for tax purposes whereby \$16.0 million of the proceeds were held by a qualified intermediary and originally reflected as an escrow deposit in the consolidated balance sheet as of June 30, 2013. Qualified properties were not identified to complete the like-kind exchanges under Section 1031 prior to expiration of the 45-day period subsequent to the closing date. As a result, the funds were transferred from the qualified intermediary to the Company and included in the Company's cash balances, and the sale was treated as a taxable event.

5. EQUIPMENT ACQUISITIONS AND DISPOSITIONS

During the nine months ended September 30, 2013, capital expenditures were \$48.2 million and consisted primarily of helicopter acquisitions and deposits on future helicopter deliveries. The Company records helicopter acquisitions in Property and

[Table of Contents](#)

Equipment and places helicopters in service once all completion work has been finalized and the helicopters are ready for use. A summary of changes to our operating helicopter fleet during the nine months ended September 30, 2013 is as follows:

Equipment Additions. During the nine months ended September 30, 2013, the Company placed three medium helicopters in service, one of which was delivered in the prior year.

Equipment Dispositions. Major equipment dispositions for the nine months ended September 30, 2013 were as follows:

Light helicopters — twin engine ⁽¹⁾	2
Medium helicopters ⁽²⁾	9
Heavy helicopters	1
	<u>12</u>

(1) Includes two light-twin helicopters that had previously been removed from service.

(2) Does not include the AW139 helicopter to be transferred to the manufacturer for trade-in credit as described below.

During the first quarter of 2013, the Company recognized a \$5.4 million gain on the sale of an EC225 heavy helicopter. The helicopter was previously on contract-lease to a customer and was damaged in an incident in May 2012, and it was subsequently sold to that customer in March 2013 for cash proceeds of \$24.6 million.

During the first quarter of 2013, the Company recognized \$2.1 million in insurance proceeds on a S76A helicopter involved in an incident in March 2013, resulting in a gain of \$1.2 million.

During the third quarter of 2013, the Company sold or otherwise disposed of property and equipment for proceeds of \$10.2 million and recognized gains of \$2.6 million.

During the nine months ended September 30, 2013, the Company sold or otherwise disposed of property and equipment, including the transactions described above, for cash proceeds of \$60.0 million and net receivables of \$0.2 million, resulting in gains of \$17.7 million. In addition, the Company recognized previously deferred gains of \$0.1 million.

Subsequent to September 30, 2013, the Company reached an agreement with its insurers related to an AW139 medium helicopter involved in an incident in a prior period. Combined with a trade-in credit from the manufacturer of the AW139 helicopter on an “as is” basis, this will result in a gain of approximately \$0.3 million upon transfer of the helicopter title to the manufacturer, which is expected to take place before year-end 2013.

6. INVESTMENTS, AT EQUITY, AND ADVANCES TO 50% OR LESS OWNED COMPANIES

Combined Condensed Financials. Summarized financial information for Dart Holding Company Ltd., in which the Company has a 50% ownership interest, was as follows (in thousands):

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2013	2012	2013	2012
Operating Revenues	\$ 9,801	\$ 8,849	\$ 31,450	\$ 33,561
Costs and Expenses:				
Operating and administrative	7,490	7,820	23,597	25,016
Depreciation	1,301	1,321	3,883	4,030
	8,791	9,141	27,480	29,046
Operating Income (Loss)	\$ 1,010	\$ (292)	\$ 3,970	\$ 4,515
Net Income (Loss)	\$ 194	\$ (254)	\$ 2,298	\$ 1,215

7. INCOME TAXES

The following table shows the effective income tax rate on continuing operations:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2013	2012	2013	2012
Statutory rate	35.0%	35.0%	35.0%	35.0%
Non-deductible expenses ⁽¹⁾	0.7%	0.4%	0.2%	(0.4)%
Noncontrolling interest	0.6%	—%	0.5%	—%
State taxes	1.0%	0.5%	1.2%	0.5%
Effective Tax Rate	37.3%	35.9%	36.9%	35.1%

(1) Non-deductible expenses are related primarily to share-based payments.

8. LONG-TERM DEBT

The Company's borrowings as of the periods indicated were as follows (in thousands):

	September 30, 2013	December 31, 2012
7.750% Senior Notes (excluding unamortized discount of \$3.2 million and \$3.4 million, respectively)	\$ 200,000	\$ 200,000
Senior Secured Revolving Credit Facility	15,000	50,000
Promissory Notes	31,007	33,098
	246,007	283,098
Less: Portion due with one year	(2,787)	(2,787)
Less: Debt discount, net	(3,191)	(3,363)
Total Long-Term Debt	\$ 240,029	\$ 276,948

7.750% Senior Notes. On December 7, 2012, the Company issued \$200.0 million aggregate principal amount of its 7.750% senior unsecured notes due December 15, 2022 (the "7.750% Senior Notes") and received net proceeds of \$191.9 million. Interest on the 7.750% Senior Notes is payable semi-annually in arrears on June 15 and December 15 of each year.

Senior Secured Revolving Credit Facility. As of September 30, 2013, the Company had \$15.0 million of outstanding borrowings under its senior secured revolving credit facility ("Revolving Credit Facility"). As of September 30, 2013, the remaining availability under this facility was \$176.3 million, net of issued letters of credit of \$8.7 million. During the nine months ended September 30, 2013, the Company had borrowings of \$15.0 million and made repayments of \$50.0 million.

Promissory Notes. During the nine months ended September 30, 2013, the Company made scheduled payments on other long-term debt of \$2.1 million.

9. COMMITMENTS AND CONTINGENCIES

Fleet

The Company's unfunded capital commitments as of September 30, 2013 consisted primarily of agreements to purchase helicopters and totaled \$239.7 million, of which \$28.0 million is payable during the remainder of 2013 with the balance payable through 2017. The Company also had \$2.0 million of deposits paid on options not yet exercised. The Company may terminate \$177.6 million of its total commitments (inclusive of deposits paid on options not yet exercised) without further liability other than liquidated damages of \$12.2 million in the aggregate.

Included in these commitments are orders to purchase ten AW189 heavy helicopters, three AW139 medium helicopters, and five AW169 light twin helicopters. The AW189 helicopters are scheduled to be delivered in 2014 through 2017. Two of the AW139 helicopters are scheduled to be delivered by year-end 2013, and one is scheduled for delivery in mid-2014. Delivery dates for the AW169 helicopters have yet to be determined. In addition, the Company had outstanding options to purchase up to an

[Table of Contents](#)

additional ten AW189 helicopters and five AW139 helicopters. If these options were exercised, the helicopters would be scheduled for delivery beginning in 2014 through 2017.

Subsequent to September 30, 2013, the Company exercised an option to acquire an additional AW139 helicopter, which is scheduled to be delivered in the first quarter of 2014. Upon exercise of this option, the unfunded capital commitment for this AW139 helicopter was \$13.8 million.

During the third quarter of 2013, the Company incurred a one-time \$2.0 million charge related to the operating leases on certain air medical helicopters.

Matters that Could Impact the Company's Investments

In July 2011, the Company acquired an interest in Aeróleo which was reflected in the Company's financial statements as an equity investment. Subsequently, Aeróleo has experienced financial difficulties arising from, among other matters, the following:

- in August 2011, Petrobras Brazil canceled its AW139 award with Aeróleo, and, as a result, these helicopters remained idle from August 2011 until late November 2012;
- suspension from flight operations of the EC225 helicopters on a global basis from October 2012 until July 2013;
- effective April 1, 2013, suspension of and non-payment by Petrobras Brazil of all EC225 helicopter contracts through late September and October 2013; and
- financial difficulties experienced by another customer which could impair its ability to pay its receivables owed to Aeróleo.

In March 2012, the Company recorded an impairment charge of \$5.9 million, net of tax, on its investment in and advances to Aeróleo resulting in a write-down of the investment to nil in 2012. As of September 30, 2013, the Company had deferred the recognition of \$16.9 million of revenues owed by Aeróleo as a result of Aeróleo's financial difficulties, and Aeróleo's partners have contributed \$9.2 million of shareholder debt to Aeróleo since March 2012 to address Aeróleo's financial challenges. In addition to these operating and financial difficulties, the Company is currently in a dispute with its partner in Aeróleo with respect to the Company's contractual shareholder rights in connection with any attempted sale or transfer of the partner's interests, which is being resolved through arbitration. A continuation of any combination of these operating and financial difficulties or the ongoing dispute with the Company's partner, taken separately or together, may impede Aeróleo's ability to pay for equipment leased from the Company, necessitate an infusion of capital from the Company to allow Aeróleo to continue to operate and adversely impact the Company's results of operations.

Other

In the normal course of its business, the Company becomes involved in various litigation matters including, among other things, claims by third parties for alleged property damages and personal injuries. Management has used estimates in determining the Company's potential exposure to these matters and has recorded reserves in its financial statements related thereto where appropriate. It is possible that a change in the Company's estimates of that exposure could occur, but the Company does not expect such changes in estimated costs would have a material effect on the Company's consolidated financial position, results of operations or cash flows.

10. SERIES A PREFERRED STOCK

On January 31, 2013, as part of the Recapitalization, SEACOR exchanged its 1,400,000 shares of Series A preferred stock, which represented all of the Company's Series A preferred stock then outstanding, for shares of newly-issued Era Group common stock. During the first quarter of 2013, the Company paid outstanding accrued dividends of \$5.0 million to SEACOR.

11. EARNINGS (LOSS) PER COMMON SHARE

Basic earnings (loss) per common share of the Company are computed based on the weighted average number of common shares issued and outstanding during the relevant periods. Diluted earnings (loss) per common share of the Company are computed based on the weighted average number of common shares issued and outstanding plus the effect of potentially dilutive securities through the application of the if-converted method and/or treasury method. Dilutive securities for this purpose assumes all common shares have been issued and outstanding during the relevant periods pursuant to the conversion of all outstanding Series A preferred stock, restricted stock grants have vested and common shares have been issued pursuant to the exercise of outstanding stock options.

Computations of basic and diluted earnings per common share of the Company were as follows (in thousands, except share data):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2013	2012	2013	2012
Net Income (Loss) Attributable to Common Shares	\$ 5,204	\$ 3,101	\$ 16,232	\$ (2,118)
Shares:				
Weighted average number of common shares outstanding—basic	20,186,013	24,500,000	20,588,791	24,500,000
Assumed conversion of Series A Preferred Stock ⁽¹⁾	—	—	—	—
Net effect of dilutive stock options and restricted stock awards based on the treasury stock method ⁽²⁾	319,919	—	—	—
Weighted average number of common shares outstanding—diluted	20,505,932	24,500,000	20,588,791	24,500,000
Basic Earnings (Loss) per Common Share	\$ 0.26	\$ 0.13	\$ 0.79	\$ (0.09)
Diluted Earnings (Loss) per Common Share	\$ 0.25	\$ 0.13	\$ 0.79	\$ (0.09)

(1) Excludes 905,430 for the nine month period ending September 30, 2013, and 7,605,769 and 6,729,167 for the three and nine months ending September 30, 2012, respectively, weighted average common shares for the conversion of Series A preferred stock as the effect of their inclusion would have been antidilutive.

(2) Excludes 232,353 for the nine month period ending September 30, 2013, weighted average common shares for certain share awards as the effect of their inclusion would have been antidilutive. No share awards existed in the respective periods in 2012.

12. RELATED PARTY TRANSACTIONS

Prior to the Spin-off, as part of a consolidated group, certain costs and expenses of the Company were borne by SEACOR and charged to the Company. These costs and expenses are included in both operating expenses and administrative and general expenses in the accompanying consolidated statements of operations. The Company entered into various agreements with SEACOR in connection with the separation, including an Amended and Restated Transition Services Agreement, Distribution Agreement, Tax Matters Agreement, Employee Matters Agreement and the Series B Preferred Stock Exchange Agreement. These costs are summarized as follows (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2013	2012	2013	2012
Payroll costs for SEACOR personnel assigned to the Company and participation in SEACOR employee benefit plans, defined contribution plan and share award plans	\$ —	\$ 2,291	\$ 5	\$ 6,129
Shared services allocation for administrative support	—	714	299	1,965
Shared services under the Amended and Restated Transition Services Agreement	843	—	2,248	—
	<u>\$ 843</u>	<u>\$ 3,005</u>	<u>\$ 2,552</u>	<u>\$ 8,094</u>

During the first quarter of 2013, the Company also paid outstanding accrued dividends of \$5.0 million on the Series A preferred stock to SEACOR.

As of September 30, 2013, the Company recorded a payable due to SEACOR of \$0.2 million. As of December 31, 2012, the Company recorded a receivable due from SEACOR of \$1.0 million.

13. SHARE-BASED COMPENSATION

Share Incentive Plans. Effective January 14, 2013, the Company adopted the Era Group Inc. 2013 Employee Stock Purchase Plan (“ESPP”) under which the Company may offer up to a maximum of 300,000 shares of Common Stock, \$0.01 par value per share, for purchase by eligible employees at a price equal to 85% of the lesser of (i) the fair market value of Common Stock on the first day of the offering period or (ii) the fair market value of Common Stock on the last day of the offering period. Common Stock is made available for purchase under the ESPP for six-month offering periods. The ESPP is intended to comply with Section 423 of the Internal Revenue Code of 1986, as amended (the “Code”), but is not intended to be subject to Section 401(a) of the Code or the Employee Retirement Income Security Act of 1974. The Board of Directors of the Company may amend or terminate the ESPP at any time; however, no increase in the number of shares of Common Stock reserved for issuance under the ESPP may be made without stockholder approval. The ESPP has a term of ten years.

Effective January 14, 2013, the Company adopted the Era Group Inc. 2012 Incentive Plan (“2012 Plan”) under which a maximum of 4,000,000 shares of common stock, par value \$0.01 per share, are reserved for issuance. Awards granted under the 2012 Plan may be in the form of stock options, stock appreciation rights, shares of restricted stock, other share-based awards (payable in cash or common stock) or performance awards, or any combination thereof, and may be made to outside directors, employees or consultants. As of September 30, 2013, 3,363,416 shares remained available for grant under the 2012 Plan.

Share Award Transactions. Transactions in connection with the Company’s share-based compensation plans during the nine months ended September 30, 2013 were as follows:

Director stock awards granted	45,510
Restricted stock awards granted	223,800
Restricted stock awards canceled	3,673
Stock option activities:	
Outstanding as of December 31, 2012	—
Converted stock options	169,058
Granted	200,000
Exercised	(40,302)
Forfeited	(1,784)
Expired	—
Outstanding as of September 30, 2013	326,972

Total share-based compensation expense, which includes stock options, restricted stock and ESPP purchases, totaled \$0.6 million and \$1.3 million for the three and nine months ended September 30, 2013, respectively. A portion of the restricted stock awards are performance-based. The Company has assessed the probability of meeting the criteria and has recorded the appropriate expense.

During the nine months ended September 30, 2013, the Company awarded 269,310 shares of restricted stock at an average grant date fair value of \$21.24 per share, granted 200,000 stock options and converted 37,900 options to purchase SEACOR common stock held by Company employees and directors prior to the Spin-off into 169,058 options to purchase Era Group common stock. The fair value used for the converted stock options was evaluated before and after the Spin-off and there was no change. The following table shows the assumptions used to compute the share-based compensation expense for stock options granted during the nine months ended September 30, 2013:

Risk free interest rate	0.81 %
Expected life (years)	5
Volatility	50 %
Dividend yield	— %
Weighted average exercise price of options granted	\$19.04 per option
Weighted average grant-date fair value of options granted	\$7.87 per option

14. SUPPLEMENTAL CONDENSED CONSOLIDATING FINANCIAL INFORMATION

On December 7, 2012, the Company issued \$200.0 million aggregate principal amount of its 7.750% Senior Notes. The Company's payment obligations under the 7.750% Senior Notes are jointly and severally guaranteed by all of the Company's existing wholly-owned U.S. subsidiaries that guarantee the Revolving Credit Facility and its future U.S. subsidiaries that guarantee the Revolving Credit Facility or other material indebtedness the Company may incur in the future (the "Guarantors"). All the Guarantors currently guarantee the Revolving Credit Facility. The guarantees of the Guarantors are full and unconditional.

As a result of the guarantee arrangements, the Company is presenting the following condensed consolidating balance sheets, statements of operations, comprehensive income and cash flows for Era Group Inc. ("Parent Company Only"), for the Guarantors and for our other subsidiaries ("Non-Guarantor Subsidiaries").

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with the accompanying unaudited consolidated financial statements as of September 30, 2013 and for the three and nine months ended September 30, 2013 and 2012 included elsewhere herein, and with our annual report on Form 10-K for the year ended December 31, 2012.

Forward-Looking Statements

This Form 10-Q includes "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements concerning management's expectations, strategic objectives, business prospects, anticipated economic performance and financial condition and other similar matters involve known and unknown risks, uncertainties and other important factors that could cause the actual results, performance or achievements of results to differ materially from any future results, performance or achievements discussed or implied by such forward-looking statements. Such risks, uncertainties and other important factors include, among others:

- *the effect of the Spin-off, including the ability of the Company to recognize the expected benefits from the Spin-off and the Company's dependence on SEACOR's performance under various agreements;*
- *decreased demand and loss of revenues resulting from developments that may adversely impact the offshore oil and gas industry, including the issuance of new safety and environmental guidelines or regulations that could increase the costs of exploration and production, reduce the area of operations and result in permitting delays, U.S. government implemented moratoriums directing operators to cease certain drilling activities and any extension of such moratoriums that may result in unplanned customer suspensions, cancellations, rate reductions or non-renewals of aviation equipment contracts or failures to finalize commitments to contract aviation equipment;*
- *safety issues experienced by a particular helicopter model that could result in customers refusing to use that helicopter model or a regulatory body grounding that helicopter model, which could also permanently devalue that helicopter model;*
- *the cyclical nature of the oil and gas industry;*
- *increased U.S. and foreign government legislation and regulation, including environmental and aviation laws and regulations, and the Company's compliance therewith and the costs thereof;*
- *dependence on the activity in the U.S. Gulf of Mexico and Alaska and the Company's ability to expand into other markets;*
- *liability, legal fees and costs in connection with providing emergency response services, including involvement in response to the oil spill that resulted from the sinking of the Deepwater Horizon in April 2010;*
- *decreased demand for the Company's services as a result of declines in the global economy;*
- *declines in valuations in the global financial markets and a lack of liquidity in the credit sectors, including interest rate fluctuations, availability of credit, inflation rates, change in laws, trade barriers, commodity prices and currency exchange fluctuations;*
- *activity in foreign countries and changes in foreign political, military and economic conditions;*
- *the failure to maintain an acceptable safety record;*
- *the dependence on a small number of customers;*
- *consolidation of the Company's customer base;*
- *the ongoing need to replace aging helicopters;*
- *industry fleet capacity;*
- *restrictions imposed by the U.S. federal aviation laws and regulations on the amount of foreign ownership of the Company's common stock;*
- *operational risks;*
- *risks associated with the Company's debt structure;*
- *operational and financial difficulties of the Company's joint ventures and partners;*
- *effects of adverse weather conditions and seasonality;*
- *adequacy of insurance coverage;*
- *the attraction and retention of qualified personnel; and*
- *various other matters and factors, many of which are beyond the Company's control.*

In addition, these statements constitute Era Group's cautionary statements under the Private Securities Litigation Reform Act of 1995. It is not possible to predict or identify all such factors. Consequently, the foregoing should not be considered a complete discussion of all potential risks or uncertainties. The words "estimate," "project," "intend," "believe," "plan" and similar expressions are intended to identify forward-looking statements. Forward-looking statements speak only as of the date of the document in which they are made. Era Group disclaims any obligation or undertaking to provide any updates or revisions to any forward-looking statement to reflect any change in Era Group's expectations or any change in events, conditions or circumstances on which the forward-looking statement is based. The

forward-looking statements in this Form 10-Q should be evaluated together

[Table of Contents](#)

with the many uncertainties that affect Era Group's businesses, particularly those mentioned under "Risk Factors" in the Company's Annual Report on Form 10-K for the year ended December 31, 2012, the Company's subsequent Quarterly Reports on Form 10-Q and the Company's periodic reporting on Form 8-K (if any).

Overview

Our helicopters are primarily used to transport personnel to, from and between offshore oil and gas installations, drilling rigs and platforms. In addition, our helicopters service other missions including emergency search and rescue, air medical transport, firefighting support and Alaska flightseeing tours. We are one of the largest helicopter operators in the world, and we also provide helicopters and related services to third-party helicopter operators. In addition to our U.S. customers, we currently have customers in Brazil, Canada, India, Mexico, Norway, Spain, Sweden, the United Kingdom and Uruguay.

We charter the majority of our helicopters through master service agreements, subscription agreements, day-to-day charter arrangements and contract-leases. Master service agreements and subscription agreements typically require a fixed monthly fee plus incremental payments based on hours flown. These agreements have fixed terms ranging from one month to five years and generally may be canceled by providing 30 days' notice. Day-to-day charter arrangements call for either a combination of a daily fixed fee plus a charge based on hours flown or an hourly rate with a minimum number of hours to be charged daily. Contract-leases require a fixed monthly fee for the customer's right to use the helicopter and, where applicable, a charge based on hours flown as compensation for any maintenance, parts, and/or personnel support that we may provide to the customer. Contract-leases generally run from two to five years with no early cancellation provisions. Air medical services are provided under contracts with hospitals that typically include a fixed monthly and hourly rate structure. With respect to flightseeing operations, we allocate block space to cruise lines and seats are sold directly to customers. We also operate a fixed based operation ("FBO") at Ted Stevens Anchorage International Airport that sells fuel on an ad-hoc basis and leases storage space.

Certain of our operations are subject to seasonal factors. Operations in the U.S. Gulf of Mexico are often at their highest levels from April to September, as daylight hours increase, and are at their lowest levels from November to February as daylight hours decrease. Our Alaskan operations also see an increase during May to September, as our firefighting and flightseeing operations occur during this time and daylight hours are significantly longer.

Market Outlook

Supported by growing demand and attractive oil and gas prices, global offshore exploration, production and development activity continues to move into deepwater areas. The U.S. Gulf of Mexico has been positively impacted by the continuing recovery from the permitting delays following the Deepwater Horizon incident in 2010, and the deepwater rig count has now surpassed pre-moratorium levels. The permitting environment, a leading indicator of future activity, has been active, and there have been several recent successful discovery announcements. In Brazil, which has more deepwater rigs than any other market, the national mandate to significantly increase production over the next five years and beyond and the ongoing growth in the deepwater fields off of its coast will likely necessitate continued investment in infrastructure and associated services. We believe the trend evidenced by these activities will translate into greater demand for medium and heavy helicopters in those markets.

Following the Deepwater Horizon incident in the U.S. Gulf of Mexico, the Bureau of Safety and Environmental Enforcement (BSEE) has been charged by the U.S. federal government to work to promote safety, protect the environment and conserve resources offshore through vigorous regulatory oversight and enforcement. BSEE provides regulatory oversight focused on compliance by operators with applicable environmental and operational regulations outlined for leases in federal waters. Current and pending oil and gas activities in the U.S. Gulf of Mexico should necessitate sustained levels of mandated BSEE inspection programs, which we believe will increase demand for services provided to government agencies.

In May 2013, Alaska passed legislation reforming Alaska's oil tax system to attract new investment and increase production on the North Slope while also streamlining the state's oil and gas permitting process. A resurgence of activity on the North Slope has also been fueled by technological breakthroughs and higher oil and gas prices. Alaska has limited transportation infrastructure, which we believe increases the need for aviation services.

Recent Events

EC225 Helicopters

In 2012, there were multiple ditchings of EC225 helicopters that led major global operators to suspend EC225 helicopter operations. One of the helicopters ditched was under contract-lease from us to one of our customers, while the other two were owned and operated by parties unrelated to us.

None of our contracts for EC225 helicopters were canceled. We continued to earn revenues associated with two of our EC225 helicopters under contract-leases in the North Sea throughout the suspension and one of our EC225 helicopters through the scheduled completion date that occurred during the suspension period, after which we relocated the helicopter to our oil and gas operations in the U.S. Gulf of Mexico.

[Table of Contents](#)

The suspension of the EC225 helicopters exacerbated financial difficulties for our Brazilian joint venture, Aeróleo, described below. We contract-lease three EC225 helicopters to Aeróleo, which are under contract with Petroleo Brasileiro S.A. (“Petrobras Brazil”). Petrobras Brazil notified Aeróleo and the other operators in Brazil that it would unilaterally suspend all EC225 helicopter contracts effective April 1, 2013 through the duration of the EC225 helicopter suspension, alleging that the helicopter could not meet the terms of the contract. Aeróleo did not receive payments for its EC225 helicopters under contract with Petrobras Brazil from April through late September and October 2013. As further discussed below, this weakened Aeróleo’s financial position and could adversely impact the Company’s results of operations.

We did not collect revenues on the EC225 helicopters we operate in the U.S. Gulf of Mexico during the suspension period since those helicopters were not flying. Instead, we earned revenue on the medium helicopters that were used to replace the EC225 helicopters in support of these customer contracts.

Eurocopter, a division of European Aeronautic Defense and Space Company and manufacturer of the EC225 helicopters, through an internal investigation identified the root cause of the EC225 helicopter service failures and implemented engineering solutions, prevention and detection measures to remedy the matters that led to the suspension. On July 10, 2013, the European Aviation Safety Agency (EASA) regulatory authority approved these measures, and the United Kingdom Civil Aviation Authority lifted operational restrictions. The Civil Aviation Authority of Norway followed suit on July 19, 2013. These measures and related regulatory approvals facilitated the full return to service of the EC225 helicopters on a worldwide basis. The Company’s EC225 helicopters in the U.S. Gulf of Mexico have now returned to service, and our EC225 helicopters on contract-lease to Aeróleo have also been cleared for service.

Aeróleo

Since the acquisition of our interest in Aeróleo, it has faced several challenges with respect to generating revenues from the helicopters that are contract-leased from us. In July 2011, we entered into contract-leases with Aeróleo and mobilized AW139 helicopters in response to notification that Aeróleo was successful in its bid to place them on contract with Petrobras Brazil. In August 2011, Petrobras Brazil canceled the award for these AW139 helicopters in response to an accident involving an AW139 helicopter on contract with Petrobras Brazil from one of Aeróleo’s competitors. As a result, four of the AW139 helicopters under contract-lease to Aeróleo remained idle from August 2011 until late November 2012. In November 2012, in response to the suspension of the use of EC225 helicopters described above, Petrobras Brazil contracted with Aeróleo to utilize these four AW139 helicopters. This contract is expected to terminate on November 30, 2013. As noted above, Petrobras Brazil alleged that the EC225 helicopters could not meet the terms of the contract, and unilaterally attempted to suspend its EC225 helicopter contracts with Aeróleo and the other operators in Brazil from April 1, 2013 through the duration of the EC225 helicopter suspension. Aeróleo did not receive monthly payments for its EC225 helicopters under contract with Petrobras Brazil from April through late September and October, 2013. Although Aeróleo’s EC225 helicopters have been cleared for service by Petrobras Brazil, they have not yet resumed flight operations, which is expected to occur in conjunction with the termination of the AW139 helicopter contracts on November 30, 2013. Thereafter, there is no assurance Aeróleo will be able to promptly place under new contract those four AW139 helicopters or otherwise generate sufficient revenue to enable it to make payments to us.

Another Aeróleo customer, OGX Petroleo & Gas Participacoes SA (“OGX”), has recently experienced financial difficulties and has filed for bankruptcy protection. These financial difficulties could impair OGX’s ability to pay its receivables to Aeróleo, which could, in turn, impair Aeróleo’s ability to make its contract-lease payments owed to us and impact our revenue. As previously noted, we currently recognize revenues from Aeróleo only as cash is received.

In addition to these financial difficulties, we are currently in a dispute with our partner in Aeróleo with respect to our contractual shareholder rights in connection with any attempted sale or transfer of our partner’s interests, which is being resolved through arbitration.

In March 2012, we recorded an impairment charge of \$5.9 million, net of tax, on our investment in and advances to Aeróleo resulting in a write-down of our investment to nil in 2012. As of September 30, 2013, we have deferred the recognition of \$16.9 million of revenue owed by Aeróleo as a result of Aeróleo’s financial difficulties, and Aeróleo’s partners have contributed \$9.2 million of shareholder debt to Aeróleo since March 2012 to address Aeróleo’s financial challenges. A continuation of any combination of these financial difficulties or the ongoing dispute with our partner, taken separately or together, may impede Aeróleo’s ability to pay for equipment leased from us, necessitate an infusion of capital from us to allow Aeróleo to continue to operate and, as a result, adversely impact our results of operations.

Fleet Update

At September 30, 2013, we had unfunded capital commitments consisting primarily of agreements to purchase helicopters totaling \$239.7 million, including ten AW189 heavy helicopters, three AW139 medium helicopters and five AW169 light twin helicopters. The AW189 helicopters are scheduled to be delivered in 2014 through 2017. Two of the AW139 helicopters are scheduled to be delivered by year-end 2013, and one is scheduled for delivery in mid-2014. In addition, we had outstanding

[Table of Contents](#)

options to purchase up to an additional ten AW189 and five AW139 helicopters. If these options were exercised, the helicopters would be scheduled for delivery beginning in 2014 through 2017.

Subsequent to September 30, 2013, the Company exercised an option to acquire an additional AW139 helicopter, which is scheduled to be delivered in the first quarter of 2014. Upon exercise of this option, the unfunded capital commitment for this AW139 helicopter was \$13.8 million.

Subsequent to September 30, 2013, the Company reached an agreement with its insurers related to an AW139 helicopter involved in an incident in a prior year period. Combined with a trade-in credit from the manufacturer of the AW139 helicopter on an "as-is" basis, this will result in a gain of approximately \$0.3 million upon transfer of the helicopter title to the manufacturer, which is expected to take place before year-end 2013.

(1) Primarily oil and gas services, including search and rescue, but also includes revenues from activities such as firefighting and utility support.

Current Year Quarter compared with Prior Year Quarter

Operating Revenues. Operating revenues were \$3.0 million higher in the quarter ended September 30, 2013 (the “Current Year Quarter”) compared with the quarter ended September 30, 2012 (the “Prior Year Quarter”).

Operating revenues from oil and gas operations in the U.S. Gulf of Mexico were \$4.9 million higher than in the Prior Year Quarter. Operating revenues increased \$6.1 million primarily due to more flight hours from medium helicopters to support deepwater drilling, completion and production activity. In addition, operating revenues from medium helicopters used to support search and rescue activities increased \$2.0 million primarily due to new customers. Operating revenues further increased by \$0.4 million due to higher rates earned on single engine helicopters, despite fewer hours being flown. The increase in operating revenues was partially offset by a \$3.1 million decrease in operating revenues from heavy helicopters due to the temporary suspension of the EC225 helicopters. In addition, lower flight hours for light twin helicopters further offset the increase in operating revenues by \$0.3 million.

Operating revenues from oil and gas operations in Alaska were \$3.9 million higher primarily due to an increase in activity with major oil and gas customers. These increases were partially offset by reduced activity with firefighting and mining exploration customers.

Operating revenues from international oil and gas operations were \$1.2 million higher due to a new contract in Uruguay that was awarded in late 2012 and commenced in January 2013.

Revenues from contract-leasing activities were \$5.9 million lower in the Current Year Quarter. Revenues from contract-leases that have ended since the Prior Year Quarter where the helicopters were reassigned to our domestic operations resulted in a decrease of \$2.7 million, and revenues from contract-leases that ended when the helicopters were sold at the end of the contract-lease resulted in a decrease of \$1.5 million. In addition, there was a decrease of \$3.1 million in contract-leasing revenues from our Brazilian joint venture, Aeróleo. The decreases were partially offset by increased revenues of \$1.5 million from a customer in India. Revenues from both our Brazilian joint venture, Aeróleo, and the customer in India are recognized on a cash receipts basis due to liquidity issues experienced by both customers.

Operating revenues from air medical services were \$1.1 million lower primarily due to the conclusion of three long-term hospital contracts, partially offset by a new contract that began in 2013. The change in contracts is primarily due to a shift in management philosophy designed to enhance profitability on these services and to one customer bringing these services in-house upon conclusion of its contract with us.

Operating Expenses. Operating expenses were \$5.1 million higher in the Current Year Quarter primarily driven by an increase in lease expense of \$2.0 million due to a one-time charge related to operating leases on certain air medical helicopters. Personnel costs increased \$1.6 million due to increased activity. In addition, repairs and maintenance expenses were \$1.2 million higher as a result of the timing of repairs in 2013, offset by decreases in expenses related to the EC225 helicopters.

Administrative and General. Administrative and general expenses were \$0.7 million lower in the Current Year Quarter. Bad debt expense decreased \$2.6 million in the Current Year Quarter due to the recognition of the bankruptcy of a customer in the Prior Year Quarter. This decrease was partially offset by increases in legal, professional and other expenses of \$0.9 million due to additional costs associated with being an independent public company and expenditures related to pending legal cases. Additional offsets include an increase in compensation and employee costs of \$0.4 million as a result of salary and benefit increases, an increase in travel expenses of \$0.2 million associated with increased business development activities, and an increase in bank fees related to our revolving credit facility of \$0.2 million.

Depreciation. Depreciation expense was \$0.4 million higher primarily due to the addition of new and higher cost helicopters.

Gains on Asset Dispositions and Impairments, Net. During the Current Year Quarter, we sold or otherwise disposed of helicopters and other equipment for total proceeds of \$10.2 million resulting in a gain of \$2.6 million. These amounts included a gain of \$3.4 million on the sale of one S76C++ helicopter and two S76A++ helicopters offset by a loss on the sale of one S76A++ helicopter of \$0.6 million and losses on the sale of other equipment of \$0.2 million in the normal course of our business. During the Prior Year Quarter, we sold helicopter components and other equipment for cash proceeds of \$0.4 million, recognizing gains of \$0.6 million including previously deferred gains of \$0.3 million.

Operating Income. Operating income as a percentage of revenues was 14% in the Current Year Quarter and in the Prior Year Quarter. Excluding gains on asset dispositions discussed above, operating income as a percentage of revenues was 11% in the Current Year Quarter compared with 13% in the Prior Year Quarter. Lease expense increased due to a one-time charge related to operating leases on certain air medical helicopters.

Interest Expense. On December 7, 2012, we completed an offering of \$200.0 million aggregate principal amount of 7.750% Senior Notes, the net proceeds of which were used to repay \$190.0 million of borrowings outstanding under our Revolving

Credit Facility. As a result of the higher interest rate on the notes, interest expense was \$1.9 million higher in the Current Year Quarter compared with the Prior Year Quarter.

SEACOR Management Fees. On December 30, 2011, we entered into a Transition Services Agreement with SEACOR to provide various corporate services at a fixed rate of \$2.0 million per annum beginning January 1, 2012. These costs, which were classified as SEACOR management fees, effectively fixed what had previously been a variable allocation of SEACOR corporate overhead expenses to each of its business units based on certain financial contribution metrics. These costs terminated effective with the completion of the Spin-off. In connection with the Spin-off, we entered into an Amended and Restated Transition Services Agreement with SEACOR to provide various shared services, the costs for which are classified as administrative and general expenses.

Earnings per Common Share. Basic and diluted earnings per common share were \$0.26 and \$0.25, respectively, in the Current Year Quarter compared to \$0.13 in the Prior Year Quarter. On an as adjusted basis, had the Spin-off occurred on January 1 of both periods, basic and diluted earnings per common share would be as follows (in thousands, except share and per share amounts):

	Three Months Ended	
	September 30,	
	2013	2012
Net Income Attributable to Common Shares	\$ 5,204	\$ 3,101
Earnings Per Common Share:		
Basic	\$ 0.26	\$ 0.16
Diluted	\$ 0.25	\$ 0.16
Weighted Average Common Shares Outstanding:		
Basic	20,186,013	19,883,583
Diluted	20,505,904	19,883,583

Current Nine Months compared with Prior Nine Months

Operating Revenues. Operating revenues were \$20.9 million higher in the nine months ended September 30, 2013 (the “Current Nine Months”) compared with the nine months ended September 30, 2012 (the “Prior Nine Months”).

Operating revenues from oil and gas operations in the U.S. Gulf of Mexico were \$14.2 million higher than the Prior Nine Months. Operating revenues increased \$23.5 million due to new medium helicopters being placed in service to support the increased deepwater drilling, completion and production activity in the U.S. Gulf of Mexico and to more flight hours from medium helicopters used to fill in for the temporarily suspended EC225 helicopters. In addition, operating revenues further increased by \$0.9 million due to higher rates earned on single engine helicopters, despite fewer hours being flown. The increase in operating revenues was partially offset by a \$10.0 million decrease from heavy helicopters due to the temporary suspension of the EC225 helicopters and a decrease of \$0.3 million in light twin helicopters due to lower flight hours.

Operating revenues from oil and gas operations in Alaska were \$11.9 million higher. The resumption of services with a major oil and gas customer that had been temporarily suspended during a portion of the Prior Nine Months contributed \$8.8 million to this increase. New contracts entered into after the Prior Nine Months contributed \$2.1 million, and short-term work related to a drillship running aground contributed a further \$2.8 million to the increase. These increases were partially offset by a \$2.0 million decrease due to decreased activity with firefighting and mining exploration customers.

Operating revenues from international oil and gas operations were \$3.5 million higher due to a new contract in Uruguay that was awarded in late 2012 and commenced in January 2013.

Revenues from contract-leasing activities were \$3.2 million lower in the Current Nine Months primarily related to an \$8.0 million decrease from contracts that have ended during the year, partially offset by an increase of \$2.2 million as a result of better collections from customers whose revenues are recognized on a cash receipt basis. In addition, we were awarded a contract-lease with a customer in Spain in the second half of 2012, but this contract-lease was terminated due to the customer’s failure to secure a contract award for use of the related helicopter. As a result, an increase in revenue of \$0.3 million from scheduled contract-lease payments and \$1.2 million from an early termination penalty was recognized. An increase in rates on the renewal of an existing contract and two short term contract-leases in the U.S. further increased contract-leasing revenues by \$1.1 million.

Operating revenues from air medical services were \$6.0 million lower primarily due to the conclusion of three long-term hospital contracts, partially offset by a new contract that began in 2013. The change in contracts is primarily due to a shift in management philosophy designed to enhance profitability on these services and to one customer bringing these services in-house upon conclusion of its contract with us.

Operating revenues from flightseeing and FBO activities increased by \$0.2 million and \$0.3 million, respectively, in the Current Nine Months. This is primarily the result of better weather conditions resulting in more flying activity.

Operating Expenses. Operating expenses were \$16.5 million higher in the Current Nine Months. Repairs and maintenance expenses increased \$11.3 million primarily due to the timing of repairs in 2013 and the absence of the benefit from \$6.8 million of vendor credits in the Prior Nine Months. Personnel costs were \$3.1 million higher in the Current Nine Months primarily due to the addition of personnel to support the increase in oil and gas activity discussed above. Lease expense increased \$2.0 million due to a one-time charge related to operating leases on certain air medical helicopters. In addition, fuel expense increased \$1.1 million due to higher flight hours and an increase in the average price per gallon. These increases were partially offset by a decrease of \$1.3 million in other operating expenses, primarily due to a decrease in part sales related to air medical contracts.

Administrative and General. Administrative and general expenses were \$1.2 million higher in the Current Nine Months. Compensation and employee costs increased \$2.3 million primarily due to the recognition of bonus awards for executive management, severance costs related to changes in senior management and share awards compensation related to equity awards granted in 2013 following the spin-off from SEACOR. Absent the impact of \$2.9 million of expenses associated with a contemplated initial public offering of our common stock recognized in the Prior Nine Months, legal, professional and other expenses increased by \$3.2 million due to costs associated with being a public company, legal expenditures and an increase in shared services fees from SEACOR. Additional contributing factors include an increase in insurance expense of \$0.3 million due to additional personnel, an increase in travel expense of \$0.3 million associated with increased business development activities, and increased bank fees of \$0.3 million related to our revolving credit facility. These increases were partially offset by a decrease of \$2.4 million in bad debt expense due to the bankruptcy of a customer in the Prior Nine Months.

Depreciation. Depreciation expense was \$3.4 million higher in the Current Nine Months primarily due to the addition of new and higher cost helicopters.

Gains on Asset Dispositions and Impairments, Net. During the Current Nine Months, we sold or otherwise disposed of helicopters and other equipment for cash proceeds of \$60.0 million and net receivables of \$0.2 million, resulting in gains of \$17.8 million. These amounts included: a gain of \$5.4 million on the sale of an EC225 helicopter that was damaged in an incident in May 2012 while under contract-lease to a customer and subsequently sold to that customer in the Current Nine Months for cash proceeds of \$24.6 million; a gain of \$1.2 million on the recognition of insurance proceeds of \$2.1 million related to a Sikorsky S76A helicopter involved in an incident in the Current Nine Months; and gains of \$11.2 million on the sale of helicopters and other equipment in the normal course of our business. In addition, we recognized previously deferred gains of \$0.1 million. During the Prior Nine Months, the Company sold helicopter components and other equipment for proceeds of \$5.2 million and recognized gains of \$3.5 million, including previously deferred gains of \$0.7 million.

Operating Income. Operating income as a percentage of revenues was 16% in the Current Nine Months compared with 11% in the Prior Nine Months. Excluding gains on asset dispositions discussed above, operating income as a percentage of revenues was 8% in the Current Nine Months compared with 9% in the Prior Nine Months. Repairs and maintenance expenses increased as a result of the timing of repairs in 2013 and the absence of the benefit from \$6.8 million of vendor credits in the Prior Nine Months.

Interest Expense. On December 7, 2012, we completed an offering of \$200.0 million aggregate principal amount of 7.750% Senior Notes, the net proceeds of which were used to repay \$190.0 million of borrowings outstanding under our Revolving Credit Facility. As a result of the higher interest rate on the notes, interest expense was \$6.8 million higher in the Current Nine Months compared with the Prior Nine Months.

SEACOR Management Fees. On December 30, 2011, we entered into a Transition Services Agreement with SEACOR to provide various corporate services at a fixed rate of \$2.0 million per annum beginning January 1, 2012. These costs, which were classified as SEACOR management fees, effectively fixed what had previously been a variable allocation of SEACOR corporate overhead expenses to each of its business units based on certain financial contribution metrics. These costs terminated effective with the completion of the Spin-off. In connection with the Spin-off, we entered into an Amended and Restated Transition Services Agreement with SEACOR to provide various shared services, the costs for which are classified as administrative and general expenses.

Income Tax Expense. Income tax expense was \$3.5 million higher in the Current Nine Months primarily due to an increase in income before income tax expense and equity in earnings (losses) of 50% or less owned companies. In addition, the effective tax rate in the Prior Nine Months was lower due to permanent differences related to share-based compensation awards and state income tax expenses.

[Table of Contents](#)

Equity in Earnings (Losses) of 50% or Less Owned Companies. During the Prior Nine Months, we recognized a loss of \$0.6 million and an impairment charge of \$5.9 million, net of tax, on our investment in our Brazilian joint venture. In the Current Nine Months, no losses were recognized on our Brazilian joint venture as they were fully written down in 2012. Earnings on other equity investments were consistent during the respective comparative periods.

Earnings (Loss) per Common Share. Earnings per common share was \$0.79 in the Current Nine Months compared to a loss of \$0.09 in the Prior Nine Months. On an as adjusted basis, had the Spin-off occurred on January 1 of both periods, basic and diluted earnings (loss) per common share would be as follows (in thousands, except share and per share amounts):

	Nine Months Ended September 30,	
	2013	2012

(1) Includes a medium helicopter that has been removed from service.

(2) In typical configuration for our operations.

(3) Reflects the average age of helicopters that are owned by us.

Liquidity and Capital Resources

General

Our ongoing liquidity requirements arise primarily from working capital needs, meeting our capital commitments (including the purchase of helicopters and other equipment) and the repayment of debt obligations. In addition, we may use our liquidity to fund acquisitions or to make other investments. Sources of liquidity are cash balances and cash flows from operations and, from time to time, we may obtain additional liquidity through the issuance of equity or debt or through borrowings under our Revolving Credit Facility.

As of September 30, 2013, we had unfunded capital commitments of \$239.7 million, consisting primarily of agreements to purchase helicopters, including ten AW189 heavy helicopters, three AW139 medium helicopters, and five AW169 light twin helicopters. The AW189 helicopters are scheduled to be delivered in 2014 through 2017. Two of the AW139 helicopters are scheduled to be delivered by year-end 2013, and one is scheduled for delivery in mid-2014. Delivery dates for the AW169 helicopters have yet to be determined. Of these commitments, \$28.0 million are payable in 2013, with the remaining commitments payable in 2014 through 2017, and \$177.6 million (inclusive of deposits paid on options not yet exercised) may be terminated without further liability to us other than aggregate liquidated damages of \$12.2 million. In addition, we had outstanding options to purchase up to an additional ten AW189 helicopters and five AW139 helicopters. If these options were exercised, the helicopters would be delivered beginning in 2014 through 2017.

Subsequent to September 30, 2013, the Company exercised an option to acquire an additional AW139 helicopter, which is scheduled to be delivered in the first quarter of 2014. Upon exercise of this option, the unfunded capital commitment for this AW139 helicopter was \$13.8 million.

We expect to finance the remaining acquisition costs through a combination of cash on hand, cash provided by operating activities and borrowings under our Revolving Credit Facility.

Summary of Cash Flows

	Nine Months Ended September 30,	
	2013	2012
	\$'000	\$'000
Cash flows provided by or (used in):		
Operating Activities	48,399	(7,091)
Investing Activities	3,301	(94,875)
Financing Activities	(40,811)	31,463
Effect of Exchange Rate Changes on Cash and Cash Equivalents	123	613
Net Increase (Decrease) in Cash and Cash Equivalents	11,012	(69,890)

Operating Activities

Cash flows provided by operating activities increased by \$55.5 million in the Current Nine Months compared with the Prior Nine Months. The components of cash flows provided by (used in) operating activities during the Current Nine Months and Prior Nine Months were as follows:

	Nine Months Ended September 30,	
	2013	2012
	\$'000	\$'000
Operating income before depreciation and gains on asset dispositions and impairments, net	53,200	49,903
Changes in operating assets and liabilities before interest and income taxes	3,856	(52,715)
Cash settlements on derivative transactions, net	(356)	—
Dividends received from 50% or less owned companies	—	(16)
Interest paid, excluding capitalized interest	(9,923)	(6,269)
Income taxes paid, net	(57)	(44)
SEACOR management fees	(168)	(1,500)
Other	1,847	3,550
Total cash flows provided by (used in) operating activities	48,399	(7,091)

Operating income before depreciation and gains on asset dispositions and impairments, net was \$3.3 million higher in the Current Nine Months compared with the Prior Nine Months, primarily due to an increase in operating revenues of \$20.9 million, partially offset by an increase in operating expenses and administrative and general expenses of \$16.5 million and \$1.2 million, respectively. See “Results of Operations” included above for an explanation of the main variances.

During the Current Nine Months, changes in operating assets and liabilities before interest and income taxes provided cash flows of \$3.9 million. During the Prior Nine Months, changes in operating assets and liabilities before interest and income taxes used cash flows of \$52.7 million primarily due to the settlement of intercompany debt with SEACOR.

Interest paid, excluding capitalized interest, was \$3.7 million higher in the Current Nine Months compared with the Prior Nine Months, primarily due to a higher interest rate on our Senior Notes. The Senior Notes offering was completed on December 7, 2012, and the net proceeds were used to repay borrowings outstanding under our Revolving Credit Facility.

SEACOR management fees were \$1.3 million lower during the Current Nine Months due to no longer being charged a management fee from SEACOR.

Cash flows from other operating activities were \$1.7 million lower in the Current Nine Months due to \$2.8 million in bad debt expense incurred in the Prior Nine Months, primarily due to the bankruptcy of a customer. This was partially offset by \$1.2 million in amortization for stock compensation in the Current Nine Months.

Investing Activities

During the Current Nine Months, net cash provided by investing activities was \$3.3 million primarily as follows:

- Proceeds from the disposition of property and equipment were \$60.0 million.
- Capital expenditures were \$48.2 million, which consisted primarily of helicopter acquisitions and deposits on future helicopter deliveries.
- Deposits into escrow for like-kind exchange were \$9.9 million.
- Net principal payments on notes due from equity investees were \$0.9 million.
- Net principal payments from third-party notes receivable were \$0.6 million.

During the Prior Nine Months, net cash used in investing activities was \$94.9 million primarily as follows:

- Capital expenditures, consisting primarily of helicopter acquisitions, were \$91.2 million.
- Investments in and advances to 50% or less owned companies were \$11.9 million.
- Proceeds from the disposition of property and equipment were \$4.9 million.
- Net principal payments on notes due from equity investees were \$2.7 million.
- Net principal payments from third-party notes receivable were \$0.8 million.

Financing Activities

During the Current Nine Months, net cash used in financing activities was \$40.8 million primarily as follows:

- Net principal payments on long-term debt were \$37.1 million.

Table of Contents

- Dividends paid on Series A preferred stock of \$5.0 million.
- Proceeds from SEACOR on the settlement of stock options of \$0.7 million.
- Proceeds and tax benefits from share-based awards were \$0.5 million.

During the Prior Nine Months, net cash provided by financing activities was \$31.5 million primarily as follows:

- Net principal payments on long-term debt were \$64.1 million.
- Proceeds from issuance of Series B preferred stock were \$100.0 million.
- Dividends paid on Series A preferred stock of \$4.5 million.

Senior Secured Revolving Credit Facility

On December 22, 2011, we entered into a senior secured revolving credit facility (the “Revolving Credit Facility”) that matures in December 2016. The Revolving Credit Facility provides us with the ability to borrow up to \$200.0 million with sub-limits of up to \$50.0 million for letters of credit and up to \$25.0 million for swingline advances, subject to the terms and conditions specified in the Revolving Credit Facility. Under certain circumstances, the borrowing capacity under the Revolving Credit Facility may be increased by up to an additional \$100.0 million. As of September 30, 2013, we had the ability to borrow an additional \$176.3 million under the facility.

Borrowings under our Revolving Credit Facility bear interest at a rate per annum equal to, at our election, either a “base rate” or LIBOR, as defined, plus an applicable margin. The applicable margin is based on our ratio of funded debt to EBITDA, as defined, and ranges from 100 to 200 basis points on the “base rate” margin and 210 to 335 basis points on the LIBOR margin. The applicable margin as of September 30, 2013, was 120 basis points on the “base rate” margin and 235 basis points on the LIBOR margin. In addition, we are required to pay a quarterly commitment fee based on the average unfunded portion of the committed amount at a rate based on our ratio of funded debt to EBITDA, as defined, that ranges from 25 to 70 basis points. As of September 30, 2013, the commitment fee was 37.5 basis points.

Senior Notes

On December 7, 2012, we completed an offering of \$200.0 million aggregate principal amount of 7.750% Senior Notes due December 15, 2022. The net proceeds of the offering were used to repay \$190.0 million of borrowings outstanding under our Revolving Credit Facility. In connection with the Senior Notes Offering, we reduced the borrowing capacity under that facility from \$350.0 million to \$200.0 million.

Short and Long-Term Liquidity Requirements

We anticipate that we will generate positive cash flows from operating activities and that these cash flows will be adequate to meet our working capital requirements. During the nine months ended September 30, 2013, our cash provided by operating activities was \$48.4 million. To support our capital expenditure program and/or other liquidity requirements, we may use operating cash flow, cash balances, proceeds from sales of assets, issue debt or equity, borrow under our Revolving Credit Facility or any combination thereof.

Our availability of long-term financing is dependent upon our ability to generate operating profits sufficient to meet our requirements for working capital, capital expenditures and a reasonable return on investment. We believe that earning such operating profits will permit us to maintain our access to favorably priced financing arrangements. Management will continue to closely monitor our liquidity and the capital and other financing markets.

Off-Balance Sheet Arrangements

On occasion, we and our partners will guarantee certain obligations on behalf of our joint ventures. As of September 30, 2013, we had no such guarantees in place.

Contractual Obligations and Commercial Commitments

For a discussion of the Company's contractual obligations and commercial commitments, refer to “Liquidity and Capital Resources—Contractual Obligations and Commercial Commitments” contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2012. During the Current Nine Months, we entered into additional contractual obligations related to orders we placed for five additional AW189 heavy helicopters, deposits for ten AW189 helicopter options and the exercise of three AW139 medium helicopter options. The total remaining contractual obligation is \$116.3 million. These commitments are not recorded as liabilities on our consolidated balance sheet as of September 30, 2013, as we have not received the goods or taken

title to the property. The additional AW189 helicopters are scheduled to be delivered between 2015 and 2017. Two of the AW139 helicopters are scheduled to be delivered by year-end 2013, and one is scheduled for delivery in mid-2014.

Subsequent to September 30, 2013, the Company exercised an option to acquire an additional AW139 helicopter, which is scheduled to be delivered in the first quarter of 2014. Upon exercise of this option, the unfunded capital commitment for this AW139 helicopter was \$13.8 million.

Contingencies

In the normal course of our business, we become involved in various litigation matters including, among other things, claims by third parties for alleged property damages and personal injuries. Management has used estimates in determining our potential exposure to these matters and has recorded reserves in its financial statements related thereto as appropriate. It is possible that a change in our estimates related to these exposures could occur, but we do not expect such changes in estimated costs would have a material effect on our consolidated financial position, results of operations or cash flows.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For a discussion of the Company's exposure to market risk, refer to Item 7A, Quantitative and Qualitative Disclosures about Market Risk, contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2012. There has been no significant change in the Company's exposure to market risk during the Current Year Quarter, except as described below.

As of September 30, 2013, we had capital purchase commitments of €176.6 million. An adverse change of 10% in the underlying foreign currency exchange rate would increase the U.S. Dollar equivalent of the non-hedged purchase commitment by \$23.9 million.

As of September 30, 2013, we maintained cash balances of €7.1 million. An adverse change of 10% in the underlying foreign currency exchange rate would reduce net income by \$0.6 million.

As of September 30, 2013, we maintained receivable balances of €3.3 million. An adverse change of 10% in the underlying foreign currency exchange rate would reduce net income by \$0.3 million.

ITEM 4. CONTROLS AND PROCEDURES

With the participation of our Chief Executive Officer and Chief Financial Officer, management evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")), as of September 30, 2013. Based on their evaluation, our Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective and operating to provide reasonable assurance that material information required to be disclosed in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, including ensuring that such material information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure, as of September 30, 2013.

During the quarter ended September 30, 2013, there were no changes in our internal control over financial reporting that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.

We have been evaluating, designing and enhancing controls, including internal controls over financial reporting, related to processes that previously were handled by SEACOR and/or will continue for a limited time to be handled by SEACOR under the Amended and Restated Transition Services Agreement, including payroll processing, information systems support, cash disbursement support, cash receipt processing and treasury management, and have been discussing these matters with our independent accountants and the Audit Committee of our Board of Directors. Based on these evaluations and discussions, we consider what revisions or improvements are necessary in order for us to conclude that our internal controls are effective. We are in the process of identifying areas where there may be a need for improvement in our internal controls, and following such process will design and implement controls and processes to address the issues identified through this review.

PART II—OTHER INFORMATION

ITEM 1A. RISK FACTORS

For additional information about our risk factors, see “Risk Factors” in Item 1A of our 2012 Annual Report of Form 10-K, in Part II, “Item 1A. Risk Factors” of our subsequent Quarterly Reports on Form 10-Q and in our Current Reports on Form 8-K (if any).

CERTIFICATION

I, Sten L. Gustafson, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Era Group Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures as of the end of the period covered by this report based on such evaluation; and
 - c) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
